## EXPERIENCE

### **Aimi UF, Sundsvall— *Design and development engineer***

September 2023 - November 2023

Responsible for transforming an app idea into a prototype, designing its interface, and creating a flowchart to clarify the app's functions. Fostered teamwork and communication within the team and took the initiative to develop the project's website.

### **Erikshjälpen Second Hand (Återkommande Mode), Sundsvall — *Summer staff***

July 2023 - July 2023 (3 weeks)

Worked specifically within Erikshjälpen's fashion branch "Återkommande Mode" participating in store maintenance, pricing goods, inventory management, and customer service. This role contributed to the development of essential skills in organization, creativity, and understanding of fashion and retail.

### **Osynlig, Sundsvall — *Intern***

November 2021 - November 2021 (1 week)

Focused on web development tasks, including troubleshooting and developing a to-do app with Vue.js. Enhanced my design skills with Figma and gained practical experience in customer relations.

### **Freelance, Fiverr — *Software publisher***

January 2019 - August 2021

Specialized in software publishing for small businesses and individual creators, focusing on enhancing their presence on popular app stores. Created engaging app descriptions and multimedia elements, and offered app testing to identify and rectify usability issues.

### **Sundsvall Bangolf, Sundsvall — *Intern***

May 2019 - May 2019 (1 week)

A comprehensive internship experience where I worked with customer service, maintenance of play areas, and performed various tasks. Learned the importance of customer satisfaction and teamwork, and quickly adapted to different job responsibilities.

## SKILLS

Stress tolerance and adaptability.

Project management.

Communication and customer service.

Critical thinking.

Initiative and professional attitude.

## AWARDS

**Programmer of the year - Stipend award from NTI Gymnasiet.** An award recognizing my contributions and achievements in programming and technology in Sweden.

## LANGUAGES

**Swedish** (Native)

**English** (Professional working proficiency)

**Spanish** (Limited working proficiency)

## EDUCATION

### **NTI Gymnasiet, Sundsvall — *Information technology***

August 2022 - June 2025 (Ongoing)

Focused studies in information technology, developing a broad competence in web development, programming languages, and project management.

## YTTERLIGARE UTBILDNINGAR & CERTIFIERINGAR

### **Ambassador training— *NTI Gymnasiet Sundsvall***

October 2023

This training focused on communication, rhetoric, and strategies for effectively engaging and interacting with people. As an ambassador for NTI Gymnasiet Sundsvall, it enhanced my public speaking skills and ability to represent the school positively.

### **Certificate in data security — *Vision***

December 2023

A certification demonstrating knowledge of GDPR and data protection principles, understanding the processing of personal data, and individual rights.

### **Certificate in retail security— *Prevent Utbildningar***

July 2023

The training covers active security work in retail, conflict management, and procedures for handling criminal situations.

## PROJECTS

### **VernFM — *Founder & developer***

Led the creation of VernFM, an innovative music platform, overseeing all development stages, including functional design, market strategy, and technical implementation.

### **Lotus — *Co-creator & developer***

Designed and developed the programming language Lotus, aimed at streamlining the programming process through intuitive syntax and user-friendliness.
